

PLACEMENT 2018-19

The campus placement process for the Patrician College of Arts and Science Class of 2019, witnessed an excellent season with most of the students already placed as on 15 March 2019. Each year, we invite and host companies on campus to hold recruitments for our students apart from the annual Job Fair conducted by the college. This year our college's placement witnessed an excellent season with 78% increase in students placed in 2019 when compared to the previous year.

We aim to invite companies from various fields in order to make opportunities available for the students belonging to all the streams. . Source Hub acts as an interface between the students of the college and various companies that come for recruitment. This time Source Hub team also conducted a survey after the orientation to clearly identify students who are interested for campus interviews vs managing their own business vs higher studies. 50% of 685 showcased interest in campus interviews and the remaining opted for other options.

Like the previous years, this year also the cell organized several workshops for students. The seminar on Soft skills Development and Career Building held in the campus proved highly valuable and appropriate for most of the final year students who would be taking part in group discussions and interviews and campus drives in the near future. 10 different types of training sessions were conducted throughout the year which varied from conducting mock interviews, online aptitude tests from NIIT, written tests, placement readiness workshops, TOFEL seminar etc.

From NIIT Foundation organized a week long placement training inside the campus for the arrear students which includes WPPF (Whole Person Process Facilitation) and Change Maker Student (CMS) Rollout, certificates were provided after the completion of the course. We also tied up with Tata Consultancy Services, for Science students to create industry awareness in their areas of specialization. The program, code named "TCS – Ignite" helped in our success.

To make students well equipped with the company processes, Source Hub has managed to arrange an Industrial Visit for the students to Wipro. Other Seminars and Mock interview sessions were also conducted for the final year students to make them train in reasoning abilities.

The placement season this year saw participation from major recruiters like Wipro, IndusInd Bank, RR Donnelley, TCS, Sutherland, Sundaram Finance, Just Dial, Zilker Technology, Infosys, Adecco, Website Learners to name a few. The process is set to wrap up on a high with the remaining students waiting to be interviewed with companies over the next few weeks. Students were offered various coveted roles in Analytics, Consulting, E-commerce, Banking and Technology Consulting.
