

WOMEN CELL 2016-2017

On 2nd March 2016, Women cell in association with the Citizen Consumer Club organized a seminar on Energy Conservation. Mr. Ajithkumar, Additional Director, PCRA addressed on the future energy reserves of our country. He reminded that there is possibility of fuel shortage for the next generation in the coming years. He urged that the fuel needs to be conserved for environmental protection, energy security and sustainable development. He gave useful tips for fuel conservation, especially on cooking gas and electricity. Some tips were on saving petrol/diesel while driving.

1. Drive at a constant and moderate speed as far as possible.
2. Switch off the engine at traffic signals or at places where you have to wait.
3. Ensure correct tyre pressure.
4. Ensure regular maintenance of the vehicle.

The resource person later elaborated on the PCRAs activities such as educating housewives on good cooking habits, educating housewives and youth on good driving habits, development of fuel efficient kerosene and LPG stoves and lighting appliances. PCRA also encourages the use of alternate sources of energy such as bio-gas, solar heater etc.

Resource Person - Mr. Ajithkumar, Additional Director, PCRA
